Pao Steel Floor Lamp

Developed for HAY by Japanese designer Naoto Fukasawa, the Pao collection of lamps is inspired by the atmospheric glow of the traditional Mongolian Pao tents at night. Concealing advanced lighting technology underneath the modest domed form, Fukasawa creates a functional everyday object that harmonises with its environment. Available as a table lamp and pendant with steel and glass shades, the collection has now been extended with a floor variant. The lamps' beautiful simplicity combined with soft ambient lighting provide a feeling of homeliness and warmth to all kinds of rooms and settings.
